

# RATE OVERVIEW

## RATE 2657 IRRIGATION SERVICE

*The Irrigation Service Rate is available to members who operate commercial/agricultural irrigation sprayers and related pump units between April 1 and October 31.*

 **There is no billing between November 1 & March 31!**

### Your NEW distribution and transmission rate structure

#### DISTRIBUTION

**VARIABLE COSTS + FIXED COSTS**

Connection Capacity Charge      Daily Charge  
\$0.04416/day  
(20% less than the competitor)<sup>1</sup>

Connection Capacity Charge  
=  $\$0.16911864 \times \text{Capacity} \times \text{Per Day}$

Capacity is the greater of:

- The highest kVA in the billing period
- The maximum kVA in the last 12 months \* 0.85
- The sum of all motor nameplate horsepower rating (1 horsepower = 0.746 kW) \* 0.85
- The contract minimum demand
- Minimum of 3 kW

#### TRANSMISSION

##### VARIABLE COSTS

Usage Charge  
\$0.079035/kWh  
(the same as the competitor)<sup>2</sup>

Your full bill may include other items like energy, investment riders, AMI riders, administration fees, and GST. For any billing questions, please call 310-EQUS.

### FACTS ABOUT THE NEW RATE STRUCTURE

Everyone saves at EQUS!

Fairness across the membership  
(you pay for what you use)!

This will not change overall revenue,  
it's simply ensuring it is collected  
fairly based on capacity being used.

EQUS will be more competitive on  
all rates, ensuring the  
co-operative advantage is more  
transparent than ever!

**DELIVERING  
MORE THAN POWER**

<sup>1</sup> EQUS irrigation members save 20% on the distribution portion of their bill, when compared with a similar rate with our competitor.

<sup>2</sup> Transmission (SYSA): The current AUC approved FortisAlberta Rate 21, including all rate riders and EQUS' administrative fees, distributed in accordance with EQUS' rate policies
